ROBIN WENZHE HU

+86-136-7569-0572 | willowhu98@gmail.com | willow-hu.github.io

Education

- **Singapore Management University** *Jan 2024 - Nov 2024*
  Ph.D. in Computer Science (Withdrawn) Singapore
  - Area: Human-Machine Collaborative Systems
- **University of Electronic Science and Technology of China** *Sep 2020 - Jun 2023*
  Master of Science in Information and Communication Engineering Chengdu, China
  - GPA: 4.0/4.0; Thesis: *Image Captioning Theories and Methods*.
- **University of Electronic Science and Technology of China** *Sep 2016 - Jun 2020*
  Bachelor in Electronic Information Engineering Chengdu, China
  - GPA: 3.93/4.0, Ranking: 15/267 (Top 5%)

Publications

[1] **Wenzhe Hu***, Shuran Fan*, Yue Li. **Read and Reflect: Exploring How the Display of User-Generated Content Shapes In-Situ Museum Expression**. *Extended Abstracts of the CHI Conference on Human Factors in Computing Systems (CHI EA), 2026.*

[2] Kexue Fu*, Yawen Zhang*, Hiu Man Ho, **Wenzhe Hu**, RAY LC, Qinyuan Lei, Shengdong Zhao. **Crafting Memorable Science Stories: Harnessing the Power of Narrative Peaks in Online Science Videos**. *Under review of ACM Transactions on Computer-Human Interaction (TOCHI).*

[3] **Wenzhe Hu**, Lanxiao Wang, Linfeng Xu. **Spatial-Semantic Attention for Grounded Image Captioning**. *IEEE International Conference on Image Processing (ICIP), 2022.*

[4] Lanxiao Wang, Hongliang Li, **Wenzhe Hu**, Xiaoliang Zhang, Heqian Qiu, Fanman Meng, Qingbo Wu. **What Happens in Crowd Scenes: A New Dataset About Crowd Scenes for Image Captioning**. *IEEE Transactions on Multimedia, 2023.*

Projects

- **Museum UGC Display and Visitor Experience** *Jul 2025 - Jan 2026*
  Project leader RA at Xi'an Jiaotong-Liverpool University
  - Led a research project on UGC display design for in-situ museum expression.
  - Derived two design concerns and four display paradigms through a synthesis of prior museum UGC systems.
  - Built four interactive prototypes and evaluated them through an in-situ museum user study with inductive thematic analysis.
  - First-author paper accepted to *CHI Conference on Human Factors in Computing Systems, Extended Abstracts (2026)*.
- **Gaze-Aided Low Vision Assistance** *Jan 2024 - Nov 2024*
  Project leader PhD student at Singapore Management University
  - Aimed at designing a low-vision assistive system, which can assist the user's gaze movements. Afterward, it changed to implement a visual impairment early detection system.
  - Conducted 3 pilot studies and 1 formal data collection study; Implemented a web-based interface for experiments; Arranged a schedule and collected eye movement data from 40 participants.
  - Extracted over 20 eye movement features; Utilized many statistical analytic methods, e.g. ANOVA, to analyze eye movement data; Designed some machine learning and deep learning-based models to classify gaze features with an accuracy of 74%.
- **Hierarchical Text Detection and Recognition** *Jan 2023 - Jun 2023*
  Group leader RA at HKUST-GZ
  - Participated in an OCR competition - Hierarchical Text: Challenge on Unified OCR and Layout Analysis.
  - Developed an end-to-end text spotting model to accomplish the challenge. Achieved the 2nd place in that competition.

Skills

- **Programming:** Python(PyTorch); C#(Unity); HTML/CSS/JavaScript; Java; Matlab; Vibe Coding
- **Research Skills:** Prototyping, Experiment Design, Quantitative and Qualitative Analysis

Honors and Awards

- **Outstanding Student Scholarship (six times)** *2017-2022*
- **Outstanding Graduate of UESTC (Top 10%)** *2020*
